YantraPly

India's Most Trusted & No. 1 Plywood Brand

At Yantra Ply, we don't just manufacture plywood; we build trust, durability, and excellence. Recognized as India's No. 1 and most trusted plywood brand, we are committed to delivering premium-quality plywood, blockboards, and doors that redefine luxury and reliability.

Why Choose Yantra Ply?

Unmatched Quality & Durability

Crafted with advanced tech for long-lasting strength.

Zero Complaints Policy

Every product meets the highest industry standards.

Customer Satisfaction First

100% transparency with no fake commitments.

Reliable & Affordable

Premium plywood at the best value.

Termite & Borer Resistant

Chemically treated for superior protection.

Eco-Friendly & Sustainable

Safe for homes, safe for the environment.

FOREVER PLY

Forever Ply (Fire Retardant)

The Ultimate in Fire-Retardant Luxury Plywood

Introducing Forever Ply from the house of Yantra Ply—a premium-grade plywood engineered for superior durability, safety, and performance. Crafted from exclusive hardwood species and bonded with BWP synthetic resin, it offers unparalleled strength and longevity.

What sets Forever Ply apart is its absolute fire-retardant properties, meeting ASTM E-84 standards for ultimate fire resistance. Combined with the revolutionary Glue Line Protection (GLP) technology, it is 100% borer and termite proof, ensuring your interiors remain pristine for a lifetime.

Key Features:

IS: 710 BWP Grade

Boiling Water Proof for extreme durability

Dual Protection

GLP+ ACC treatment for enhanced resistance

E0 Emission Compliance

Environment-friendly and safe

Precision Calibrated

Uniform thickness for flawless application

Lifetime Warranty

Protection against borers and termites

Absolute Fire-Retardant

Certified as per ASTM E-84

Forever Ply

The epitome of luxury, strength, and safety

Fire-Retardant Luxury Plywood

Forever Ply is the epitome of luxury, strength, and safety, making it the perfect choice for premium interiors, high-end furniture, and fire-safe construction. Elevate your spaces with plywood that lasts forever.

TITANIUM CLUB

Titanium Club

The Ultimate in Strength & Durability

Yantra Ply's Titanium Club plywood is a premium Boiling Water Proof (BWP) plywood, crafted using a unique pre-pressing technique that ensures even moisture and adhesive distribution. Designed for superior performance, it is the first in-class fire-retardant BWP plywood, offering unmatched safety and longevity.

With Titanium Club plywood, experience uncompromised quality, reliability, and safety, making it the perfect choice for high-end interiors and exteriors.

Designed with sustainability in mind

Yantra Block Boards

Pro710 Blockboard

Key Features:

Boiling Water Proof (BWP) Grade for high durability
Poplar Gapless Filling for enhanced strength and uniformity
High Dimensional Stability with minimal warping
Borer & Termite Resistant with advanced chemical treatment
Superior Nail & Screw Holding Capacity for strong fixture support
Weather & Moisture Resistant for long-lasting performance
Bonded with Phenol Formaldehyde (PF) Resin for superior bonding strength
Smooth Surface Finish for premium aesthetics
ISI Certified for assured quality

Applications:

Doors & Windows Partitions & Wall Paneling
Shelving & Storage Units Interior & Exterior Usage
Furniture & Cabinetry

Titanium Blockboard

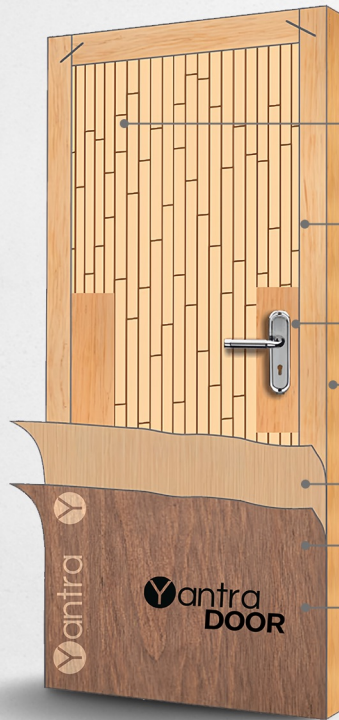

Key Features:

Luxurious Blockboard crafted for premium applications
Pure New Zealand Pine Core for superior strength and durability
Gapless Filling Technology ensuring uniform density and high performance
Boiling Water Proof (BWP) Grade for enhanced moisture resistance
Exceptional Dimensional Stability with minimal warping or bending
High Nail & Screw Holding Strength for secure and long-lasting fixtures
Borer & Termite Resistant with advanced chemical treatment
Bonded with Phenol Formaldehyde (PF) Resin for unmatched bonding strength

Applications:

Doors & Windows Wall Paneling & Partitions
High-End Commercial & Residential Projects
Kitchen & Wardrobes

Yantra Doors

Bend-Proof Technology: Engineered for exceptional stability and durability

High-Strength Frame: 72-hour seasoned pinewood for uniformity and strength

Lock Rail on Both Sides: Ensures easy and secure installation

Premium Core Layers: Seasoned and tenderized hardwood for long-lasting performance

AA+ Grade Face Veneer: 0.5mm thick, high-quality surface finish

Anti-Termite & Borer Treatment: Enhanced protection for longevity

High-Performance Adhesive: Compliant with IS:848 standards, tested in in-house laboratories

Yantra Titanium Doors

The Ultimate Waterproof Flush Doors

Key Features:

100% Waterproof: Designed to withstand extreme moisture and wet conditions.

Boiling Waterproof (BWP) Grade: Superior performance in all weather conditions.

Pure New Zealand Pine Core: Ensures unmatched strength, durability, and longevity.

Gapless Filling with Pine Frame: Provides a seamless structure with no voids for maximum stability.

Bend-Proof Construction: Highly resistant to warping, bending, or swelling over time.

Glue Line Internal Protection (GLIP) Technology: Patented anti-borer and anti-termite treatment.

30-Year Warranty: Assured premium quality and long-lasting durability.

Eco-Friendly Manufacturing: Made using sustainable and non-toxic materials.

Applications:

Luxury Homes & Villas

Hotels & Resorts

High-End Office Interiors

Premium Commercial Spaces

Areas with High Humidity or Water Exposure

Yantra Doors

Yantra Prime Doors

Key Features:

Boiling Waterproof (BWP) Grade: Superior water resistance, ideal for humid and wet conditions.

Excellent Insulation: Protects against dust, heat, and noise for enhanced comfort.

Pine Frame & Poplar Filling: Ensures a strong, lightweight, and stable structure.

Gapless Flush Door: Provides a seamless, high-quality finish with no voids or weak spots.

Glue Line Internal Protection (GLIP) Technology: Patented protection against borer and termite infestations.

Smooth and Ready-to-Finish Surface: Compatible with laminates, veneers, or paint for aesthetic appeal.

Applications:

Homes & Apartments Offices & Workspaces

Commercial Spaces Hotels & Resorts

Educational Institutions

Yantra Eco Doors

Key Features:

Moisture-Resistant (MR) Grade: Designed for reliable performance in interior applications.

Mix Filler Core with Pine Frame: Ensures a sturdy yet cost-effective construction.

Good Insulation: Provides resistance against dust, heat, and noise.

Gapless Construction: Enhances structural strength & durability.

Borer & Termite Resistant: Treated for long-lasting protection.

Smooth Finish: Ideal for laminates, veneers, or paint applications.

Eco-Friendly: Made with sustainable materials and safe adhesives.

Applications:

Residential Interiors Office Partitions

Budget-Friendly Commercial Spaces

Educational Institutions
